Visual Studio 6.0 with SQL Server Integrated edition is free of charge (pre-installed into Windows 2000) but the download size is huge. Or visual studio to configure application build settings for use with native code.Object. talsar For MSDN, Visual Studio has two components. CD1 and CD2. Each has different modules and features. Every release of Visual Studio has included CD1 and CD2 together. They do not get separated. If you are getting Visual Studio 6, you are getting CD1 and CD2. The modules are: Client Components: Core, Language Service, Libraries, View Components. Server Components: MFC, MFCSDK, ADO, Data Access Components, Server Applications, Web Server Components, Team Foundation Server Extensions,.NET Framework Extensions. The features are: The components are both free and full. Here is the difference: CD1 has MFC and ADO components which is not free. There is no web server component in CD1 CD2 has MFC, ADO, Data Access, Server Applications and Team Foundation Server Extensions components which is free. I guess that CD2 is what you want. Q: Should I add the first word in the verb phrase in subordinate clause? For example: The president and the Prime Minister waited with their guests in the entrance hall. The president and the Prime Minister waited in the entrance hall with their guests. Which one is correct? A: Either of your sentences is correct, but the second one sounds more fluent to me. When a verb is not mentioned by itself, the word in front of it comes with it. You do not usually need to put in the verb except when the verb is the object of a preposition: The president and the Prime Minister are waiting in the entrance hall. The man who has fought the longest legal battle in the United States over the right of Muslims to build an Islamic center near Ground Zero has still not found a judge willing to hear his case. On Thursday, he told a reporter he is ready to drop his fight – and give up his wife. “We’re just done,” said Imam Feisal Abdul Rauf. “I’m ready to give her up. It’s over.” It was the first time an interview with Imam R f678ea9f9e
